SOURCE OF LIFE IS BATCHELOR'S SUBJECT

Visiting Divine From Michigan Occupies Methodist Pulpit.

The Rev. W. R. Batchelor occupied the pulpit of the Methodist Episcopal Church last night in the place of the regular pastor. He is on a tour of the world, this being his first and probably his last sermon in Honolulu. Mr. Batchelor is a Baptist minister from Cold Water, Michigan.

His subject last night was "Christ, the Source of Life," his text being taken from John 1:10, "I am come that ye might have life and that ye might have it more abundantly."

He said in part: "There is an instinct within man to cling to life and to fight anything that impedes or endangers life. The invalid will spend much time and money in an effort to find any information, any climate or some physician, the finding of which may possibly lengthen life. An old man is loth to admit the ravages that years have made. Man has been endowed with great strength and power, and yet how helpless he finally is in the presence of death. The Creator spoke a shapeless mass into this beautiful and expansive world of ours. He breathed into a lump of clay and man became a living soul. A man's life is not measured by how long he lives, but by how he lives. Men sometimes measure a man by what he accumulates or controls. Men should be judged, not by the number of people who serve them, but by the number whom they serve."

"Your sphere," he said, "may not be large, but you can touch other lives. Christ intensifies life. Study the history of man and you find that he came into his own when he came to know God, and this is life eternal that ye might know him. The son of God became the son of man that the sons of man might become the sons of God. We were made in God's image in that we were made self-conscious, self-determined and immortal. By the advent of sin that image has been marred, but through Christ we may regain the likeness and be truly the sons of God."

MORSE WILL SPRINT SOME.

A. G. Morse, who was nominated for the legislature by the Democrats as a candidate from the fourth district, appeared in the published list of candidates as A. G. Moore. He wants it understood that he is A. G. Morse and that he is going to make a run that is a run.

ABRAHAM'S PREDICAMENT.

The Sunday school class had reached the part in the lesson where "Abraham entertained the angel unaware."

"And what now is the meaning of 'unaware'?" asked the teacher.

"There was a bashful silence; then the smallest girl in the class piped up, 'Unaware is what you take off before you puts on your nightie.'—Lippincott's.

WHAT THE PRESS AGENTS SAY

The Novelty.

Her Wise and Mary Milton gave their famous Indian stand at the end of the week and were obliged to respond to several recalls. It is one of their best acts and is sure to draw applause. Ralph Smith closed with the "Hawaii Hula" and was, as usual, obliged to come back time and again. He will have something new this week, as will Wise and Milton. The dances with which most of the pictures at the Novelty are shown is often remarked.

The Empire.

The attraction at the Empire this week will be the California rightingale, Miss Manda Rockwell, in entirely new songs. The Adagio Sisters will have some new acts and songs, and Miss Catherine de Beverley will sing the illustrated songs. The motion pictures have been carefully selected and will show life in its different phases.

The Park.

The addition of Mr. Blair and Miss Laurel Atkins to the company at the Park has been prolific of results. Their act with Connie Marina last week was highly satisfactory to the large audiences that filled the grounds. This week there will be something even better, "Doctor Cutemup" being the title. Aside from the vaudeville, the pictures draw large crowds, and the fact that the place is open, allowing the air to pass through, is the biggest attraction of all. Connie Marina is to sing "The Gayety Girl," by special request.

Band Concert.

The program for the band concert at Emma Square tonight will be:

March—Semper Fidelis..... Sousa
Overture—Anna Bolena..... Donizetti

CONDEMN SAUSAGES.

From Germany to Hawaii is a far cry (or in this instance a far bark), but the two were odoriferously connected up several days ago when Chemist E. B. Blanchard condemned a consignment of canned sausages. The German delicacies, which had crossed two oceans and a few isthmuses, were found to have left the straight and narrow path after once getting out into the wide world and to have gone to the bad altogether. They were consigned to Hackfield's.

WHY Ivory Soap, or any other, should be a valuable insecticide is hard to explain, but it is a fact. It has the advantage of not making the bushes unsightly as Bordeaux mixture does. A prominent nurseryman and florist writes that he had used it for years for an astonishing variety of insect pests.—Garden Magazine for June '07.

ALL ON SUNDAY, WILL BE TRIED ON MONDAY
Hose Strong on Sabbath Virtue and Pinches Four Offenders.

Hose, the tallest man on the force, yesterday lived up to his name and reputation and made the bag for the day in the way of offenders. He specialized in violations of the Sunday law and four of varying nationality and sex, he landed behind the bars for their first was Hong Chong, a Chinese who was selling dry goods to fellow countrymen, and the second was Sing Long who was doing the same thing in the same way. The third, a lady of Nippon, was caught within an hour and a half after number one. Hose's long broadsword cut into a grin at each one and if he hadn't been so busy bagging out his reports each time he had have caught more. The lady captive was innocent up to the time her customer "squealed" and then she decided that honesty was the best policy, even on Sunday. She was doing a wholesale business and Peter poked around the corner door and saw the coin pass.
